DETAILED ACTION

Claim Objections

1. Claims 4, 12 and 13 are objected to because of the following informalities:

In claims 4 and 13, the parameter p' in the formula A-1 is recited twice.

Appropriate correction is required.

There is a typo in claim 12, "nitogen".

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is unclear what are the components of the claimed particulate composite. The phrase starts with wherein after the preamble fails to clearly define all components of the claimed composite. In addition, the structure as described in claim 1 is unclear. The structure that encapsulates the carbon compound is described as "originated" from a core/shell structure. Does this core-shell structure remains after forming an encapsulation on the carbon compound or converts into a different structure?

Claim 9 suffers the same deficiencies of claim 1.

Other claims are deemed indefinite in view of their dependency upon claim 1 or

9.
